Dear Mr. Klein:

Thank you for your letter of December 18, 2014, sent to us by your lawyer, Dianne Saxe.

We wish to draw to your attention the fact that the goal of the Global Alliance to Eliminate Lead Paint is, as its name states, to end **all use** of lead in paint. We therefore repeat our question as to whether your company will commit to supporting this goal of ending **all use** of lead in paint and agree to join this international partnership.

We also ask that your company cease its opposition to the European Union initiative to end the use of lead chromate pigments. We, in particular, request that your company withdraw the applications that it filed with the European Chemicals Agency in 2014, seeking an exemption so as to be able to continue making and distributing lead chromate pigments after the planned deadline of May 21, 2015.

We request that you provide us with clear answers to our above important questions. Thank you.

Sincerely,
